A hard-working individual with a keen interest in computers and technology. A good team player, who is able to work in any environment. I am a quick learner who adapts to new technologies very quickly. Able to work under pressure in various environments. Skilled at working on the Time Management of computer systems, with knowledge in both hardware and software concepts and how it works.

# PERSONAL PROJECTS

## Music Player
- - This is a Music Player a web application. It is developed by using HTML, CSS and JavaScript. The basic structure of this application is developed using html and the UI part is designed by CSS. The main part or work is done by JavaScript which is making the application dynamic. All songs are imported in a file and JavaScript is fetching it one by one, when we click on next button to play the next song and back button to play the previous song. It has also a pause and play button to pause and play the song. All these things makes this application responsive.
